Applicable Codes and Ordinances

The effective Code of Ordinances governing this project is the Town of Davie Land Development Code.

Land Development Code (Section 12-305), Rezoning, Special Permits, Variances, and Vacations or Abandonment of Rights-of-Way, the purpose of this division is to guide the processing and granting of rezoning, special permits, variances and vacations or abandonment of rights-of-way in a manner consistent with the Town of Davie Comprehensive Plan, existing development and in a manner which protects the public health, safety and welfare.

Land Development Code (Section 12-24 (J)(13)), Community Facilities (CF) District, the CF District is intended to implement the community facilities classification of the Town of Davie Comprehensive Plan by providing areas for location of community facilities.

Land Development Code (Section 12-83), Conventional Nonresidential Development Standards, CF, Community Facilities District, requires the following minimums: lot area of 43,560 square feet, 100' frontage, 30 percent open space, and 35' maximum building height.

Comprehensive Plan Considerations

Planning Area:

The subject property falls within Planning Area 2. Planning Area 2 includes the westernmost section of the Town north of Orange Drive and south of SW 14 Street, and bound on the west by Interstate 75 and on the east by SW 100 Avenue. The predominant existing and planned land use is single family residential at a density of one dwelling per acre.

Broward County Land Use Plan:

The subject site falls within Flexibility Zone 100.

Applicable Goals, Objectives & Policies:

Future Land Use Plan, Community Facilities Use, policy 13-2: Community Facilities may be permitted in land use categories other than Community Facilities category, provided such development is compatible with and does not adversely affect the development of surrounding land for designated purposes.

Future Land Use Plan, policy 5-2: The (re)zoning, (re)planning, and site planning of land shall be in compliance with the density ranges shown on the Davie Future Land Use Plan map and the applicable Future Land Use Designation provisions as contained in the Permitted Use portion of the Implementation Section.

Future Land Use Element, Land Use Compatibility and Community Appearance, Policy 17-1: Lands designated for non-residential use shall be located in a manner, which facilitates development, but does not adversely impact existing and designated residential areas.

Future Land Use Plan, Land Use Compatibility and Community Appearance, Policy 17-2: No property within the Town shall be rezoned to a zoning district that is not in compliance with the Davie Future Land Use Plan.

Future Land Use Plan, Land Use Compatibility and Community Appearance, Policy 17-3: Each development proposal shall be reviewed with respect to its compatibility with adjacent existing and planned uses.

Application Details

The petitioner requests to rezone the approx. 3.25 acres subject site from A-1, Agricultural District to CF, Community Facility District to allow the site to be converted into the Norwegian Seamen's Church. Ancillary uses include 3,200 square feet of church; 5,650 square feet of office for the Norwegian consulate and fellowship hall, 2,300 square feet of three-car garage/storage and a rectory (three units). According to the

Land Development Code, the subject site meets the minimum requirements for the CF, Community Facilities District zoning classification, as the minimum lot size required is 43,560 square feet (approximately 1.0 acres), and a minimum lot frontage of 100 feet. In addition, Community Facilities including Houses of Worship are allowed in the Residential 1 Dwelling Unit per Acre, land use category provided such development is compatible with and does not adversely affect the development of surrounding land for designated purposes.

Public Participation

The public participation process provides the ability for citizens of the Town of Davie to actively participate in the Town's development procedures. The petitioner conducted meetings with the public at the Town of Davie Community Room on January 3, 2008 and January 10, 2008. Attached is the petitioner's Citizen Participation Report.

Staff Analysis

The following information is staff's analysis based on the criteria established in the Town of Davie's, Land Development Code, Section 12-307(A)(1) for rezoning application. The planning and zoning board shall make a recommendation upon the application to the town council, based upon its consideration of, where applicable, whether or not:

- (a) The proposed change is contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;

The Town of Davie Comprehensive Plan permits Community Facilities to include Houses of Worship within the Residential 1 DU/AC Future Land Use Plan Map designation and therefore rezoning the site to CF, Community Facilities District, is compatible with the underlying land use category.

- (b) The proposed change would create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;

The CF, Community Facilities District, is compatible with the adjacent, Agricultural District zoning designations since this district is compatible with the Residential 1 DU/AC, Future Land Use category and the proposed development of the site as a House of Worship will be made compatible through the application of the Land Development Code's setback and buffering requirements.

- (c) Existing zoning district boundaries are illogically drawn in relation to existing conditions on the property proposed for change;

The existing A-1, Agricultural District, boundaries are the original zoning boundaries and are logically drawn.

- (d) The proposed change will adversely affect living conditions in the neighborhood;

Designating the site CF, Community Facilities District, in order to allow a House of Worship is not expected to have a negative impact on the neighborhood. Community Facilities including Houses of Worship are permitted in the Residential 1 DU/AC land use category. The Land Development Code requires that the site be designed to account for the adjacent uses by providing for minimum setbacks, limiting building height, and requiring landscape buffers.

(e) The proposed change will create or excessively increase automobile and vehicular traffic congestion, above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety;

The traffic generated by the proposed House of Worship may be, at times, more than single family residential development on the site. The petitioner indicated that at peak hour, the maximum trip generation will be 16 trips, and that the community center and chapel will not have concurrent uses.

(f) The proposed change will adversely affect other property values;

Places of worship are uses commonly located with residential areas, and are not expected to have a negative impact on the value of the adjacent properties.

(g) The proposed change will be a deterrent to the improvement or development of other property in accord with existing regulations;

Rezoning the subject site will not deter improvements to the surrounding developed properties, since all properties are required to meet existing Land Development Code.

(h) The proposed change will constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;

Rezoning the subject site does not give the owner a unique benefit that harms the welfare of the general public.

(i) There are substantial reasons why the property cannot be used in accord with existing zoning.

The existing zoning designation of A-1, Agricultural District, is intended to implement the Agricultural and Residential one (1) dwelling unit per acre classifications of the Town of Davie Comprehensive Plan. Staff is not aware of any reasons why the property cannot be used in accord with the existing zoning.

(j) The proposed rezoning designation is the most appropriate designation to enhance the Town's tax base given the site's location relative to the pattern of land use designations established on the future land use plan map, appropriate land use planning practice, and comprehensive plan policies directing land use location.

Places of worship are uses commonly located within residential areas. However, under the existing zoning designation of A-1, Agricultural District, the existing single family residence enhances the Town's tax base.

Staff finds that the rezoning request complies with the general purpose of the proposed CF, Community Facilities District. The rezoning request is in conformance with all applicable Codes and Ordinances and is consistent with the other surrounding zoning districts. Furthermore, the rezoning request can be considered compatible with the surrounding properties.

Staff finds the application complete and suitable for transmittal to the Planning and Zoning Board and Town Council for further consideration.

Re: Norwegian Seamen's Church - Rezoning Petition

Dear: Ms. Bazinet

I would like to express my thanks for the previously attended pre-application meeting on 3 Oct, 2007 and your continued support in the rezoning and site development process for the Norwegian Seamen's Church project.

As a synopsis of the previously mentioned project I provide the following:

The current site address is 2950 Flamingo Road, Davie, FL 33467 and is comprised of two parcels which shall be referred to as current site or property (Aka: FLAMINGO GROVES UNIT A SUB OF NW1/4 10-52 B 24-50-40 TRACT 28 E 145 OF W 305, LESS PT DESC'D AS, COMM AT SW COR OF NW1/4 OF SEC 24, ELY 34.74, NLY 990.26, ELY 175.18 TO POB, NLY 329.91, ELY 20, SLY 329.91, WLY 20 TO POB.
and
FLAMINGO GROVES UNIT A SUB OF NW 1/4 10-52 B 24-50-40 TRACT 28, LESS W 305).

The Property consists of a 3.256+/- acre site located on the East side of Flamingo Rd (Estate Rd) #823, approximately 1320' south of SW 26th Street, in the Town of Davie, also being within the limits of Broward County, Florida.

The site currently houses a Single Family Residence, Multiple car detached garage, two small storage sheds and an Accessory Structure with apartments and warehouse area all joined with interconnecting driveways, also located adjacent and north of the residence is an above ground pool with built up perimeter wood deck. Site landscaping has a vegetated pond (+/- .175 acres) with an overlooking cantilevered kiosk along with primarily sodded grounds and landscaped areas around the site with young to moderate aged trees and a few mature trees.

Norwegian Seamens Church desires to rezone the property from its current A1 (Agricultural District) zoning to CF (Community Facilities) to allow for the operation of a Church / House of Worship center to be developed on site with accessory dwellings and structures which is consistent with the Current future land use as Residential 1 D.U /acre.

It is our intent to further develop the site based on the following:

- The existing residence +/- 2,910 sf. will have +/- 300 Sf. added on; the intended use is that of a sanctuary and supporting a café, gift shop, fellowship space, offices, rest rooms etc... for a new sanctuary area +/- 3,200 sf. total.
- The new sanctuary will be joined via canopies to the new +/- 5,400 sf. community center and will provide the church with the banquet room, conference room, kitchen area and offices for the churches use as well as offices for use by the Norwegian / Scandinavian Honorary Consulate, all in support of the current church operational procedures.
- The existing +/- 1,600 sf. garage structure will be demolished and replaced with a combined 3 car garage with storage building of approximately +/- 1,225 sf. in support of the main Reverend staff housing.
- The existing +/- 2,800 sf. structures with apartments and warehouse area will be demolished and be replaced with 4 apartment units (3 at 2,060 sf. +/-, and a unit for an intern at +/- 600 Sf.) in support of the church staff.
- Driveways and parking areas will be modified to meet the needs as required to support the new uses and will be kept to the west of the property near the road as per code requirements.

The intent behind demolishing and replacing two (2) of the existing structures with new same use structures is to comply with codes, make the site more practical with enhanced flow between the structures and modernize the buildings to enhance the aesthetics of the site.

The subject property upon the approval of the rezoning will still be consistent with the Town of Davie Comprehensive plan insofar as a church / house of worship being an accepted use in the requested CF zoning, and fall adjacent to A1 and AG. This change will also be consistent with the land development code intent of implementing CF into the community. This would also comply with the minimum distance requirement of 2,500' between churches / house of worship within the Town of Davie.

The subject property is also located along a stretch of major thoroughfare along Flamingo Road characterized mainly by agricultural and residential uses, preliminary estimates for the traffic flow increases are expected to be insignificant for the site.

The approval of this rezoning will not negatively impact adjacent property values; it is a community type use which brings a positive impact to the community and would not adversely impact the current property values or deter future development of adjacent properties. The change can also be approved with no special favors to this property as it is consistent with current zoning combinations found throughout the area and would bring additional community facilities to the area.

This rezoning is required as the proposed use for the site as a church would not be an approved use under the current zoning.

The sites proposed landscaping and building uses will be that of a family environment thus being an enhancement to the surrounding area communities and existing site conditions.

I endeavor to say that the preceding provides a brief project outline and vision in support of the Town of Davie and expect both positive feedback to both the Town and owners of the property as we develop this project.

We look forward to working with you and once again thank you for your time.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tomas Suarez Jr.', written in a cursive style.

Re: Citizen Participation Plan Meeting for: Norwegian Seamen's Church
Project Number: ZB 11-1-07\0820

Dear Neighbor:

This letter is to invite you to a citizen participation meeting relating to Norwegian Seamen's Church for a parcel located at 2950 S. Flamingo Road Davie, Florida 33330. Norwegian Seamen's Church desires to rezone the property from its current A1 (Agricultural District) zoning to CF (Community Facilities) to allow for the operation of a Church / House of Worship center to be developed on site with accessory dwellings and structures. It is our intent to further develop the site based on the following:

Convert existing residence for use as a sanctuary and supporting a café, gift shop, fellowship space, offices, rest rooms etc. Build a new +/- 5,400 sf. community center that will provide the church with a banquet room, conference room, kitchen area and offices for the churches use as well as offices for use by the Norwegian / Scandinavian Honorary Consulate. Build four new apartment units and garage, in order to provide church staff housing. Driveways and parking areas will be modified to meet the needs as required. The sites proposed landscaping and building uses will be that of a family environment thus being an enhancement to the surrounding area communities and existing site conditions.

Under a Town of Davie ordinance, the petitioner is required to hold two (2) citizen participation meetings and send notice to all property owners within 1,000 feet of the subject site prior the Town initiating their review of the application. We have scheduled the following meetings.
